(1) Business & Basis of Presentation

Business

We broadcast our music, sports, entertainment, comedy, talk, news, traffic and weather channels, as well as infotainment services in the United States on a subscription fee basis through our two proprietary satellite radio systems. Subscribers can also receive music and other channels, plus new features such as SiriusXM On Demand, over the Internet, including through applications for mobile devices. We have agreements with every major automaker ("OEMs") to offer satellite radios as factory- or dealer-installed equipment in their vehicles from which we acquire the majority of our subscribers. We also acquire subscribers through the sale or lease of previously owned vehicles with factory-installed satellite radios. Additionally, we distribute our satellite radios through retail locations nationwide and through our website. Satellite radio services are also offered to customers of certain daily rental car companies.

Our primary source of revenue is subscription fees, with most of our customers subscribing on an annual, semi-annual, quarterly or monthly basis. We offer discounts for prepaid and long-term subscription plans, as well as discounts for multiple subscriptions. We also derive revenue from other subscription-related fees, the sale of advertising on select non-music channels, the direct sale of satellite radios, components and accessories, and other ancillary services, such as our Internet radio, Backseat TV, data, traffic, and weather services.

In certain cases, automakers include a subscription to our radio services in the sale or lease price of new and previously owned vehicles. The length of these prepaid subscriptions varies, but is typically three to twelve months. In many cases, we receive subscription payments from automakers in advance of the activation of our service. We also reimburse various automakers for certain costs associated with satellite radios installed in their vehicles.

On January 3, 2013, the Federal Communications Commission granted Liberty Media approval to acquire de jure control of us. On January 17, 2013, Liberty Media filed a Form 4 with the Securities and Exchange Commission indicating that on January 15, 2013 it, indirectly through its subsidiaries, purchased an additional 50,000,000 shares of our common stock. On January 18, 2013, Liberty Radio, LLC, a wholly-owned subsidiary of Liberty Media and the holder of all of the outstanding shares of our Series B Preferred Stock, converted all of its Series B Preferred Stock into 1,293,509,076 shares of our common stock. As a result of this recent purchase and conversion Liberty Media beneficially owned as of January 17, 2013, directly and indirectly, an aggregate of 3,292,800,311 shares of our common stock, representing approximately 50.21% of all the outstanding shares of our common stock.

As a result of the foregoing, a Fundamental Change occurred on January 17, 2013 under the indenture governing the Exchangeable Notes. In accordance with the indenture, on February 1, 2013, we made an offer to each holder of Exchangeable Notes to: (i) have the Company repurchase his or her Exchangeable Notes at a purchase price in cash equal to \$1,000 per \$1,000 principal amount of the Notes (plus accrued and unpaid interest to, but excluding March 1, 2013); or (ii) exchange his or her Exchangeable Notes for our common stock, at an exchange rate of 581.3112 shares per \$1,000 principal amount of Notes, on or prior to March 1, 2013. This exchange rate is a benefit to the holders compared to an exchange rate of 543.1372 shares of common stock in effect prior to occurrence of such Fundamental Change.
