This press release includes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding the timing and content of the earnings call, the timing and content of the webcast, and the availability of the press release on the Liberty Media website. These forward-looking statements are subject to various risks and uncertainties, including those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, filed with the U.S. Securities and Exchange Commission on January 29, 2019, and subsequent quarterly reports on Form 10-Q. Actual results may differ materially from those projected in the forward-looking statements due to factors including, but not limited to, those described in the Company's Annual Report on Form 10-K and quarterly reports on Form 10-Q. The Company does not undertake any obligation to update or revise any forward-looking statement, except as required by law.

NON-GAAP FINANCIAL MEASURES

SCHEDULE 1

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for the Liberty SiriusXM Group, the Braves Group and the Formula One Group, together with reconciliations to operating income, as determined under GAAP. Liberty Media defines adjusted OIBDA as revenue less operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization, restructuring and impairment charges and separately reported legal settlements that are included in the measurement of operating income pursuant to GAAP.

Liberty Media believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty Media views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Media's management considers in assessing the results of operations and performance of its assets.

The following table provides a reconciliation of adjusted OIBDA for Liberty Media to operating income (loss) calculated in accordance with GAAP for the three months and years ended December 31, 2017 and December 31, 2018, respectively.
