Primary F1 revenue is comprised of (i) race promotion fees, (ii) broadcasting fees and (iii) advertising and sponsorship fees. Due to the outbreak of COVID-19, there were no F1 races held in the first quarter of 2020. F1 currently expects racing to commence in July and continue through December with a target calendar of 15 to 18 races. It is currently unknown at what point fans will be permitted to attend.

Since there were no events held during the first quarter of 2020, primary F1 revenue consisted only of the elements of sponsorship contracts associated with non-race related rights that were recognized during the period, and no race promotion fees nor broadcasting fees were recognized. Similarly, other F1 revenue decreased due to zero revenue recognized from the Paddock Club and other event-based activities and television production activities. We currently expect no races to take place in the second quarter of 2020.

Operating loss increased and Adjusted OIBDA decreased in the first quarter. There was no team payment expense recorded since such payments are recognized on a pro-rata basis across races on the calendar. Other cost of F1 revenue is largely variable in nature and relates directly to F1 events. These costs decreased h
